A Guide to Using “thinglink”

Thinglink is a free resource for tagging information within images. To use Thinglink you must register and set up a free account. To create an account and use Thinglink, follow the steps below.

1. Go to www.thinglink.com	
2. Select “Join Now” from the upper right corner.	3. Enter your name, email, and create a password.	
4. Once logged in with your email and password, select the “Create” button in the upper right corner.	
5. Upload your image from your hard drive. *TIP: Save your image to your desktop or any easy to find folder for quick upload.*	
6. Insert an image title.	
7. Click the image to add tags in appropriate locations on the image.	
8. Complete the “tag” box with the pertinent information. Add a link if you want to link to another website. Add a description if you want to add your thoughts/information to the image. Click “save” to add tag.	9. When all tags are complete, select “save”.	10. To share your image with tags, select “share” on the small menu to the left of the image.	11. Capture the URL or link. Paste this wherever you would like to share the image.
